Summary Financial Results

	2024	2023	Change	
Revenues	\$688	\$569	21%	
Net Earnings	\$29	\$12	142%	
Diluted WASO	266.443	262.378		
Diluted Earnings Per Share (EPS)	\$0.11	\$0.05	120%	
Non-GAAP Financial Measures (1)				
Adjusted EBITDA	\$70	\$49	43%	
Adjusted EBITDA Margin	10.2%	8.6%	160 bps	
Adjusted Net Earnings	\$38	\$19	100%	
Adjusted Diluted EPS	\$0.14	\$0.07	100%	

(1) The company reports its financials in accordance with U.S. generally accepted accounting principles ("GAAP"). Information about the company's use of non-GAAP financial measures, including a reconciliation of the non-GAAP financial measures to the most comparable financial measures calculated and presented in accordance with U.S. GAAP, is provided under "Non-GAAP Financial Measures."

Revenue growth was entirely organic and accelerated to 21% for the first quarter compared to last year.

Solid momentum from our naval power, ground systems integration, advanced infrared sensing and naval network computing programs drove the robust revenue growth in Q1.

Higher volume was the key driver for the significant year-over-year adjusted EBITDA growth and margin expansion in the quarter.

Quarterly net earnings, adjusted net earnings, diluted EPS and adjusted diluted EPS were all higher primarily as a result of strong operational performance but also benefited slightly from tailwinds on non-operational items, namely lower net interest expense and a lower effective tax rate.

Cash Flow and Balance Sheet

Net cash flow used in operating activities was \$265 million for the first quarter. The company's free cash flow use was \$275 million in the quarter. The use of operating and free cash flows were largely consistent with the historical patterns of the business but showed year-over-year improvement on both metrics.

At quarter end, the balance sheet had \$160 million of cash and \$211 million of outstanding borrowings under the company's credit facility, which provides the company with sufficient financial capacity to deploy capital for growth, while maintaining a healthy balance sheet.

Bookings and Backlog

(Dollars in millions)	Three Mont	Three Months Ended	
	March	31,	
	2024	2023	
Bookings	\$815	\$749	
Book-to-Bill	1.2x	1.3x	
Backlog	\$7,845	\$4,272	

The company received \$815 million in new funded awards during the quarter. Robust bookings were driven by increased international demand in infrared sensing, tactical radars and air defense systems support as well as domestic awards for naval network computing and electric power and propulsion technologies. At quarter end, backlog stood at a record of \$7.8 billion, representing an 84% increase year-over-year.

Segment Results Advanced Sensing and Computing ("ASC") Segment

(Dollars in millions)	Three Months Ended		
	March	March 31,	
	2024	2023	Change
Revenues	\$433	\$391	11%
Adjusted EBITDA	\$41	\$37	11%
Adjusted EBITDA Margin	9.5%	9.5%	— bps
Bookings	\$587	\$404	
Book-to-Bill	1.4x	1.0x	

ASC bookings continued to pace well ahead of expectations with demand most evident for advanced infrared sensing, naval and ground network computing and tactical radar technologies. Revenue growth on advanced infrared sensing and naval network computing programs were the primary drivers for the year-over-year increase in the segment. Higher volume drove the adjusted EBITDA growth; however, margin was flat in the quarter due to less favorable program mix.

Integrated Mission Systems ("IMS") Segment

(Dollars in millions)	Three Months Ended		
	March 31,		
	2024	2023	Change
Revenues	\$261	\$189	38%
Adjusted EBITDA	\$29	\$12	142%
Adjusted EBITDA Margin	11.1%	6.3%	480 bps
Bookings	\$228	\$345	
Book-to-Bill	0.9x	1.8x	

Healthy contribution from ground systems integration and electric power and propulsion efforts drove IMS bookings in the quarter. Strong execution across the segment was responsible for the robust revenue growth in the guarter. Improved program profitability, namely from Columbia Class and higher volume propelled the increases in adjusted EBITDA and adjusted EBITDA margin in the guarter.

2024 Guidance

Leonardo DRS confirms its 2024 guidance as specified in the table below:

Measure	2024 Guidance
Revenue	\$2,925 million - \$3,025 million
Adjusted EBITDA	\$365 million - \$390 million
Tax Rate	22.5%
Diluted Shares Outstanding	268.0 million
Adjusted Diluted EPS	\$0.74 - \$0.82

The company does not provide a reconciliation of forward-looking adjusted EBITDA and adjusted diluted EPS, due to the inherent difficulty in forecasting and quantifying the adjustments that are necessary to calculate such non-GAAP measures without unreasonable effort. Material changes to any one of these items could have a significant effect on future GAAP results.

Non-GAAP Financial Measures (Unaudited)

In addition to the results reported in accordance with U.S. GAAP included throughout this document, the company has provided information regarding "Adjusted EBITDA," "Adjusted EBITDA Margin," "Adjusted Net Earnings," "Adjusted Diluted Earnings Per Share" and "Free Cash Flow" (each, a non-GAAP financial measure).

We believe the non-GAAP financial measures presented in this document will help investors understand our financial condition and operating results and assess our future prospects. We believe these non-GAAP financial measures, each of which is discussed in greater detail below, are important supplemental measures because they exclude unusual or non-recurring items as well as non-cash items that are unrelated to or may not be indicative of our ongoing operating results. Further, when read in conjunction with our GAAP results, these non-GAAP financial measures provide a baseline for analyzing trends in our underlying businesses and can be used by management as a tool to help make financial, operational and planning decisions. Finally, these measures are often used by analysts and other interested parties to evaluate companies in our industry by providing more comparable measures that are less affected by factors such as capital structure.

We recognize that these non-GAAP financial measures have limitations, including that they may be calculated differently by other companies or may be used under different circumstances or for different purposes, thereby affecting their comparability from company to company. In order to compensate for these and the other limitations discussed below, management does not consider these measures in isolation from or as alternatives to the comparable financial measures determined in accordance with U.S. GAAP. Readers should review the reconciliations below and should not rely on any single financial measure to evaluate our business.

We define these non-GAAP financial measures as:

Adjusted EBITDA and Adjusted EBITDA Margin are defined as net earnings before income taxes, interest expense, amortization of acquired intangible assets, depreciation, deal-related transaction costs, restructuring costs and other one-time non-operational events (which include non-service pension expense, legal liability accrual reversals and foreign exchange impacts), then in the case of adjusted EBITDA margin dividing adjusted EBITDA by revenues.

Adjusted Net Earnings and Adjusted Diluted EPS are defined as net earnings excluding amortization of acquired intangible assets, deal-related transaction costs, restructuring costs and other one-time non-operational events (which include non-service pension expense, legal liability accrual reversals and foreign exchange impacts), and the related tax impacts, then in the case of adjusted diluted EPS dividing adjusted net earnings by the diluted weighted average shares outstanding.
